Claims - Settlements

7 This claim covers the cost of repairing damage to State Highway vehicle bearing Reg. HYF 329 which was damaged in an accident occurring on November 3, 1966 on Kenilworth Boulevard, Kenilworth, New Jersey. Two vehicles were involved in this accident; one owned by the State of New Jersey being operated by Fred Marinaro and the other owned and operated by Richard L. Lattanzio. Cost of repair to the State vehicle was $69.11.

Investigation by the Claims Bureau indicates that the State vehicle was traveling west on the boulevard and crossed the intersection of Route 21 and was entering an angular parking space. The State vehicle was almost completely parked when the driver of the other vehicle, on the right of our vehicle, started backing out and the left front of his vehicle struck the right front fender of the State vehicle. From the above facts, it appears that the State driver was at least partially negligent in pulling into a parking space while another vehicle was pulling out. Upon contacting the insurance company, the State's claim was denied. Subsequently, the Claims Bureau prevailed upon them for a fifty percent settlement under the doctrine of Miller v. Layton. The Claims Bureau is in receipt of a draft in the amount of $33.55.

In view of the foregoing, it is my recommendation, and in accordance with Mr. Levine's memorandum attached hereto, and the recommendation of Deputy Attorney General Joseph Lipkin, that this claim against Richard L. Lattanzio, be accepted for fifty percent, or $35.11, rather than incur additional expense in proceeding with a suit. (May 31, 1967)

Claims - Settlements

8 The Department of Transportation is carrying a claim against Robert W. Sangston in the amount of $255.71 arising out of an accident occurring on July 10, 1966 involving a vehicle owned and operated by Robert W. Sangston. As the result of said accident, the concrete barrier curb was damaged and had to be repaired at a cost of $255.71.

The debtor in this case did not have insurance coverage at the time of the accident in question and requested consideration, inasmuch as, he was about to enter the military service for a period of two years. Negotiations between the Claims Bureau and Mr. Sangston resulted in his agreeing to pay the State the sum of $127.85, representing 50% of this claim provided this sum could be paid on the installment basis. Mr. Sangston has now completed his payments totaling $127.85 in accordance with his previous agreement.

It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack that this sum be accepted in full settlement of the State's claim and the balance of the claim be cancelled. (May 31, 1967)

Claims - Settlements

Re: New Jersey Department of Transportation and Sterling Johnson v. The Pennsylvania Railroad Co., Public Service Electric and Gas Co. and the City of Newark
Amt. of Claim - $496.00

The above named former employee of the Department of Transportation sustained personal injuries on October 13, 1964 as the result of an accident arising out of and in the course of his employment with the Department. On the date in question, Sterling Johnson was operating a pavement breaker. During the course of this operation, he severed an underground cable, resulting in burns to his right hand and right fore arm. This employee lost no time from his employment by reason of this accident, but required medical treatment costing the Department the sum of $56.00. A formal petition for compensation was also filed and the Division of Workmen's Compensation made an award of 2% permanent partial total requiring the payment of $440.00. The State's total compensation lien arising out of this accident amounts to $496.00.

Inasmuch as the cable was owned by an outside party, a suit was instituted in the Essex County District Court against the above named defendants. Negotiations conducted by the Claims Bureau prior to trial has now resulted in each defendant offering the sum of $80.00, or a total of $240.00 in full settlement of the State's lien. All three defendants have denied responsibility for the cable in question and Sterling Johnson is no longer employed by the State and is now an employee of the Public Service Electric and Gas Company.

In the event of an actual trial, in order to prove our case it would undoubtedly cost the State more that the sum we are waiving to produce the necessary witnesses and it might be difficult, if not impossible, to prove negligence on the part of the defendants involved. It is therefore our recommendation that the offer of settlement in the amount of $240.00 be accepted in full settlement of this claim in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack. (May 31, 1967)

There is presented again the matter of condemnation of property on Route 72 (1953), Section 6, From Union-Stafford Township Line to Route U.S. 9, Parcel 10C, Lake Manahawkin Estates, Inc.

Condemnation proceedings were previously authorized on March 8, 1966 at which time the owner's demand of $15,000 was considered excessive. Concurrent with authorization of condemnation proceedings, authority was granted to deposit the sum of $4,200 in the Superior Court, which sum represented the reviewer's registered Fair Market Value determination at that time.

Subsequently, an additional appraisal was secured which resulted in the Fair Market Value determination being re-registered in the sum of $5,700. The owner's re-affirmed demand of $15,000 is still considered excessive.

Authority is therefore requested to deposit the additional sum of $1,500 in the Superior Court, which when added to the sum of $4,200 previously deposited will equal the reviewer's re-registered Fair Market Value determination. **(May 31, 1967)**

Condemnation proceedings were previously authorized for the acquisition of Parcel 82 at which time the owners would not state a demand.

Subsequent thereto, the Engineers revised the taking, and designated it as Parcel 282. Negotiations were continued with the owners for the acquisition of Parcel 282 with the result that the owners have refused a suggested settlement in the sum of $31,000 which is the registered fair market value, and demanded $60,000, which demand is considered excessive.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel 282 in fee simple subject to any public utilities existing in the premises. It is also recommended that condemnation proceedings previously authorized for Parcel 82 be discontinued.

(May 31, 1967)

conveyance of Parcels VRM27[illegible] and VRM27C, on [illegible] Project I 287-2-(10), fr[illegible] Jersey to the Board of Education of the Township of Morris.

This conveyance is being made in accordance with an [illegible] the Commissioner of the Department of Transportation on [illegible], 1967, under the terms of which the Board of Education of the Township of Morris conveyed to the State Parcel R30A at a consideration of $13,[illegible], plus conveyance of Parcels VRR27B and VRR27C. 167 [illegible] - Route 80

There is presented a report concerning an easement designated as Parcel

UE192 on the General Property Parcel Map, Colonial Road Estate Association, Route 80 (1953), Section 5K, Project I-80-5-(12), New Jersey & New York Railroad (Erie) At Hackensack to Hackensack River. Condemnation proceedings were previously authorized for the acquisition of this easement. Further investigation by our Engineers has disclosed that this easement is not required for present construction and the owners have been so advised.

It is recommended that the previous action authorizing condemnation for the acquisition of this easement be rescinded and that Parcel UE192 be deleted from the General Property Parcel Map. (May 25, 1967)

Right of Way - Route 15

168 There is presented again the matter of acquisition of property on Route 15, Section 2, Federal-aid Project F-206-(5), Berkshire Valley Road to Morris-Sussex County Line, Parcels 47A & E47B, Frank Goritski and Eileen Goritski, his wife, on which an agreement in the sum of $24,760. was previously approved. A Deed has been delivered to the State.

Subsequently, the owners contended that they were unaware that the drinking water well was in the area of the acquisition and that negotiations did not include the full cost of relocating the well, which well was relocated at an actual cost to the owner of $1,573.71. Also, it is to be noted that another well on the premises became dry during the highway construction. The settlement for the acquisition of the parcels was based upon Mr. Seymour Tuschak's appraisal report and Mr. Tuschak had placed a value of $750.00. on the well. Continued negotiations have resulted in the owners executing a release in the sum of $823.71. which represents the difference in the actual cost of the relocation of the well and Mr. Tuschak's estimated value for the well.

It is recommended that the attached release of all claims for further damages be accepted by the Commissioner and authority granted to pay the owners the additional sum of $823.71. therefor; making the total settlement for the acquisition of Parcels 47A & E47B, $25,583.71. (May 25, 1967)

A motion was made for a new trial and a settlement was reached with the owner's attorney for the transfer of the above parcels and additional parcels. The above parcels were included in the figure at $5,000. No deposit has been made into Court.

Since this settlement was made in Court, the department has no choice except to pay. Commission action on the other parcels will be submitted. Approval of the above settlement in the amount of $5,000 is recommended. (May 25, 1967)

Right of Way - Route 21 Freeway

170 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 21 Frwy., Section 4, Parcel 43 owned by Peter Barna.

The fair market value was registered in the amount of $13,500. At the hearing before condemnation commissioners the owners expert testimony was in the amount of $20,500. This was an entire taking. The State's experts testimony was in the amount of $13,500 and $11,500. The fair market value is in the amount of $13,500 and a deposit in that amount was paid into court.

A protective appeal was filed on May 9, 1967. The property owner has also filed an appeal. It is recommended that the Commissioner approve the appeal of this matter heretofore filed. (May 29, 1967)

Right of Way - Route 21

1737 There is presented the matter of approval of the settlement in the condemnation of property on Route 21, Section 4, Parcel 144 in the City of Passaic, owned by Abram Preiskel, widower.

A Report of Commissioners was filed in the amount of $85,000, the amount of the settlement. The State's fair market value was originally fixed at $75,000. The property owner was asking $125,000. Subsequently, the owner's attorney informed the Deputy Attorney General handling the case that he would settle for $112,000 which offer the Deputy refused. Two days before the date set for hearing, the property owner's attorney offered to settle for $85,000. Prior to that time the fair market value had been re-registered at $80,000. The updating of the appraisers' figures following the conference preliminary to hearing disclosed sales which showed an increase in value from the date of the original appraisals. The owner's agreement to settle was made on condition that payment be made promptly. There was a deposit made into court in the sum of $75,000.

Approval of payment of $10,000, the difference between the amount of the deposit and the amount of the settlement is recommended. (May 29, 1967)

Right of Way - Route 24 Freeway

1738 There is presented the matter of the settlement in condemnation of an easement on Route 24 Freeway, Section 10, Parcel E100, Township of Morris, owned by Lester W. Berenbroick and Warren Crater.

The fair market value for this taking was originally set in the amount of $3,000. After hearing before commissioners, the commissioners entered an award in the sum of $5,000. On May 27, 1966 authority was requested and granted to take an appeal from the said award.

On March 10, 1967, the question of whether or not the adverse influences of the Route 24 Freeway upon the remainder should be reflected in value came before the Honorable John W. Fritz, Superior Court, Law Division, on the State's Motion for Declaratory Judgment. The court found, after lengthy argument by counsel for both sides, that Route 24 influences should be considered in arriving at value. The owners had previously testified to a value of $9,900 inclusive of such influences and the State has secured appraisals taking into account such influences in the amounts of $5,300 and $7,000.

Accordingly, it is recommended that the appeal previously authorized be dismissed and that the commissioners' award in the amount of $5,000, together with lawful interest as computed by the Bureau of Titles, be paid. (May 29, 1967)

1739 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 35, Section 10, Parcel R5A, owned by Rollo Realty; et al.

The fair market value was registered at $16,000. At the trial before the court and a jury, the owner's testimony was in the amount of $70,000. An architect testified to a proposed plan to eliminate functional obsolescence of improvements due to the taking; however, the landowner's own appraiser admitted the planned re-arrangement of

improvements would result in a betterment of $20,000 over the value before the taking. The State offered testimony in the amount of $15,725. The jury rendered a verdict in the amount of $15,725 to which the court added interest in the amount of $1876.66, making a total of $17,601.66.

The State made a deposit in the amount of $16,000. The verdict, together with interest, will exceed that sum.

Approval of the payment of the judgment in the amount of $17,601.66, together with lawful interest on the excess of the judgment over the deposit as computed by the Bureau of Titles, is recommended. (May 25, 1967)

However, since the judge computed interest to the date of the judgment, which was added to the principal sum, the judgment is properly in the amount of $9,936.64, plus interest to the date of payment.

It is recommended that the judgment of $9,936.64 plus interest at 6% to the date of payment be authorized. (May 29, 1967)

The appeal was dismissed by the State for inadequate presentation of the question.

It is recommended that authority be granted to pay the judgment in the amount of $5,961.63 with interest as computed by the Bureau of Titles. There was deposited on May 25, 1967 by Declaration of Taking $3,100.00. (May 31, 1967)

Legal Division Items

Right of Way - Route 17

92 The commissioners made an award of $269,680 in this matter. Fair market value, as fixed by the State, was $187,000 and the testimony presented to the condemnation commissioners was in this amount. The owner's testimony was in the amount of $362,020. The Legal Division took an appeal.

Subsequently, the fair market value was re-registered at $265,000. We understood that this re-registration was a result of a conference between members of the Right of Way Division and the Federal Bureau of Roads in the absence of any Deputy Attorney General.

Subsequently, the Right of Way Division requested that legal dismiss the appeal. Notice of application to so do was made to the court and opposed by the owner's attorney. The motion was adjourned on several occasions and then argued on December 16. The owner was then seeking various items of alleged damage including counsel fees and costs.

On Friday, May 9, we received a copy of the court's opinion which granted the State permission to dismiss its appeal. It said nothing about costs but granted the owner the right to take an appeal No such application had ever been made.

We do not believe that at this time an appeal can be taken from the court's ruling. We believe that the State's best interest will be served by depositing the amount of the commissioners' award.

The owner in this case has other properties in Bergen County and we believe he will be good for any overage which there may be at a jury trial. We doubt that there will be an overage if we, in legal, are obliged to go into court at the fair market value fixed. If we do not do so, we will, of course, have difficulty with the Bureau.

It is, therefore, recommended that the amount of the commission award, $269,680, together with lawful interest as computed by the Bureau of Titles be deposited in court.

Research Item

54 Microfilming Accident Records

Motor Vehicle Accident Records are a valuable tool in research conducted to evaluate improvements in highway construction or traffic engineering. By law, the records are retained by the Division of Motor Vehicles, and these are destroyed after five years for state highways, and after three years for other roads, due to limitations imposed on the Division of Motor Vehicles' storage facilities.

Microfilming the accident records will permit maintaining the records for a longer period of time and also insure the availability of information for comparison purposes. The Division of Motor Vehicles does not have sufficient funds to microfilm the backlog of five years' records; it is, therefore, proposed a transfer of funds in the amount of $72,927.00 be transferred from Account 612-185-767 (Item 80, Research Non-Federal Participating - Construction Program FY 1967)to the Division of Motor Vehicles.

Legal Division Items

Right of Way - Route 24

241 There is presented the matter of the consent Judgment against the State in the condemnation of property on Route 24, Section 13, Parcel 4, owned by Joseph G. Gallini.

The fair market value was registered in the amount of $1,200. There is another appraisal in the file in the amount of $2,800. This is a partial taking. The commissioners award was in the amount of $3,000. The State appealed the commissioners award.

Considering the severance damages and the risk in presenting the case to a jury, it was felt that a settlement in the amount of $1,500 would be in the best interest of the State.

Accordingly, a consent Judgment in the amount of $1,500 net without interest or cost and interest not to accrue on the Judgment from and after September 5, 1967 was entered. The property owner would have been entitled to approximately $50 interest.

It is recommended that the Commissioner approve the payment of the Consent Judgment in the amount of $1,500. (June 19, 1967)

Right of Way - Route 29

242 There is presented the matter of the appeal by the State from the award of condemnation commissioners in the sum of $4,000. A judgment was entered against the State in the condemnation of property on Route 29, Section 15, Parcel 15, in the Township of Ewing, owned by Janet H. Hurst.

A settlement for this and additional lands was previously made by Deputy Attorney General Cannon. I directed that an appeal be taken therefrom. At the trial on appeal before the court, the owner's attorney proceeded to show that we acquired lands other than those described in the complaint and that the road was constructed thereon. Mr. Cannon apparently had previously told the Right of Way Division that such lands were affected; however, no papers came through to condemn these additional lands. At the trial there was a stipulation that such lands were included to avoid future litigation. At the trial the owner offered testimony in the amount of $8,300. The State's figure was $160 as the value of the property described in the complaint and $2,700 as to the undescribed property, making a total of $2,860. The verdict was in the sum of $4,000 which was apparently based on the previous settlement to which objection was made by this office. The court added interest at the rate of 6 per cent on the entire amount from the date the State entered possession to the date of final payment. N o deposit was paid into court.

In view of the fact that judgment has been entered, there is no choice but to pay the amount thereof, $4,000 together with interest at the rate of 6 per cent as directed by the court. (June 15, 1967)

Right of Way - Route 35

243 There is presented the matter of a consent award entered into on June 12, 1967, in the condemnation of property on Route 35, Section 3, Parcels 11A & 11B, in the Borough of Brielle, owned by Greenwood Cemetery Association of Manasquan.

A physical inspection of the property with our engineer and appraiser disclosed an increased and faster flow of water from the highway reconstruction at this area than existed before. While the drainage situation is visible, it does not appear on the map. The cost of constructing a pipe in the amount of $1,500 was added to the deposit in court in the amount of $2,400. The owners consented to an award in the amount of $3,900. Interest was not mentioned. Interest would have amounted to approximately 30 per cent of the State's figure.

It is recommended that the consent award in the amount of $3,900 less the deposit of $2,400 be paid without interest. (June 19, 1967)

Right of Way - Route 35

244 There is presented the matter of a consent award entered into on June 12, 1967, in the condemnation of property on Route 35, Section 3, Parcels 11C & 11D, in the Borough of Brielle, owned by Greenwood Cemetery Association of Manasquan.

Originally neither the State nor the property owner were able to do more than estimate the amount of cemetery lots taken as a result of the State's revision of one of the cemetery roadways. Eventually the cemetery map was revised and, prior to the hearing, both parties agreed to the number of lots taken which was in excess of the State's original estimate. Based on the appraiser's original price per lot, his figure was increased from $10,200 to $12,500. The parties agreed to a consent award in the amount of $13,100.

It is recommended that the consent award in the amount of $13,100, less the deposit of $10,200, be paid without interest. (June 19, 1967)

Right of Way - Route 46

245 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 46, Section 1, Parecl 839 owned by Rose Smith.

The fair market value is registered in the amount of $2,700. At the hearing before condemnation commissioners the owners expert testimony was in the amount of $4,900. The State's expert testified to $2,700. The fair market value of $2,700 was deposited in Court, November 1, 1966.

The commissioners awarded $4,000. A protective appeal is being filed and it is recommended that the Commissioner approve the taking of this appeal. (June 19, 1967)

Right of Way - Route 78

246 There is presented here the matter of the appeal by the property owner from the award of condemnation commissioners in the sum of $15,350. A judgment was entered against the State in the condemnation of property on Route 78, Section 4B, Parcels 33A, 33B, owned by Vincent A. Spatz.

The matter was scheduled for trial before the Court and a jury. After the jury viewed the subject premises and after some negotiations the case was settled for the sum of $21,000 including all interest. Fair market value was re-registered from $12,200 to $18,200. A deposit was made in Court of $12,000 on October 27, 1966. A Consent Judgment was entered in the amount of $21,000 net on May 24, 1967.

Approval of the payment of the additional $9,000 over the deposit is recommended. (June 15, 1967)

Right of Way - Route 78

247 There is presented the matter of the settlement entered against the State in the condemnation of property on Route 78, Section 5B, Parcel 27, owned by Gerald Goldman.

The fair market value was registered in the amount of $35,000. The property owner was interested in acquiring the excess parcel. A conference was had with James V. Hyde, Director, Right of Way and he stated that if the property owner would pay $12,500 for the excess parcel they could acquire the excess parcel.

Accordingly, the matter was settled and the property owner accepted the fair market value of $35,000 and is to pay $12,500 for the excess parcel.

It is recommended that the Commissioner approve the settlement of this matter. (June 19, 1967)

S. 322 (1953), Section 3 in the City and County of Atlantic, which construction will affect the proposed construction of a gasoline service station by the Company inasmuch as the elevation of a large water main existing longitudinally along the northeasterly side of the route is such as to make unfeasable the construction of entrances to the proposed gas station from the route as planned. Services - Engineering
Route 80
Madigan-Hyland, Inc.

On July 13, 1965, a boring contract was approved by the Department and the Bureau of Public Roads for $100,000 to provide reimbursement to the consultant for this authorized work and an additional $40,000 is required.

It is, therefore, recommended that this amount be set up. (June 22, 1967)

Services - Engineering
Route 287
Howard, Needles, Tammen & Bergendoff

26 Our Agreement with Howard, Needles, Tammen & Bergendoff dated January 11, 1964, relative to services in connection with Route 287, provided for a basic fee ceiling of $937,000 which was predicated on the scope of work reflected by an estimated construction cost of $19.5 million.

It is evident that the services required are more extensive than originally contemplated and some adjustment of the fee is therefore required. This matter is presently being discussed with the Bureau of Public Roads, so the exact details of readjustment may not be known for some time.

In order to prevent undue hardships, an interim adjustment to the consultant must be considered. The construction cost is now estimated at approximately $21.5 million or an increase of $2 million. Although the present fee equivalent is 4.8%, until a detailed analysis is made, it is proposed that the additional $2 million provide compensation at an interim fee equivalency of approximately 3%.

It is, therefore, recommended that the sum of $63,000 be set up to provide a semi-readjusted maximum compensation level of $1 million.

Continued negotiations have resulted in the execution of agreement as follows:

Parcel 34 Joseph F. Gallagher & Anne D. Gallagher, H/W Consideration $23,800

This parcel has been appraised and the Reviewer's Fair Market Value Determination is $21,000. The variance not being substantial, the agreement would appear in the Public interest and approval is recommended.

It is further recommended that condemnation proceedings previously authorized be rescinded. There was no deposit made into court in this case. The registered fair market value was paid directly to the owner under an agreement in lieu of a deposit. (June 29, 1967)

188 Right of Way - Route 24 Freeway

There is presented again the matter of the purchase agreement on Route 24 Freeway, Section 12, Project U-204-(6), River Road to Route 78, on which a purchase agreement has heretofore been approved on December 16, 1966, covering Parcel 13, Alfred W. Fuller and Ann Cecelia Fuller, his wife, for a consideration of $67,800.00, including a down payment of $16,950.00 (owner to retain and remove air conditioning unit, tool shed and fireplace).

The examination of the title to the property discloses that a strip of land approximately 8' wide and ending in a cul-de-sac along the northerly property line is a part of a 12' wide private right of way known as Fuller Drive. The right to use this drive is also held by the owners of lands both adjoining the parcel being acquired and property lying beyond it. The owners have been unable to secure releases of the outstanding rights.

The owner has agreed to a deduction of $500.00 from the consideration to be paid, making the agreed purchase price $67,300.00 by reason of his inability to secure the releases. This Department is willing to accept title subject to the right of way, and therefore recommend the acceptance of the owner's offer and to make payment of the reduced purchase price in the amount of $67,300.00, including a down payment of $16,950.00. An appeal from a condemnation commissioners award in the sum of $72,343 was previously prepared by the Right of Way Division and authorized on March 13, 1967. Inadvertently a second request for authority to appeal this commission award was prepared by the Legal Division and was submitted to the Commissioner and approved on May 22, 1967. The appeal was originally filed to protect the State's interest while a review of the appraisals was undertaken. Based on a careful review from a Right of Way standpoint, the award of $72,343 does not appear to be unreasonably in excess of the State's

In view of the foregoing, it is recommended that the appeals previously authorized be discontinued and that the award of $72,343 previously rendered be approved.

Authority is further requested to pay the difference of $7,343 between the award of $72,343 previously rendered and the deposit of $65,000 made in the Superior Court. Authority is also requested to pay interest at the rate of 6% on this $7,343 difference from the date of complaint on June 21, 1966 to the date of payment. (June 27, 1967)

191 There is presented again the matter of acquisition of property on Route 287 (1953), Section 7, Federal-aid Project I-287-2-(2), Passaic River to Annin Road, Parcel 8, Walter Kotarski and wife. An agreement was previously approved by the Commissioner in the sum of $5,550 on November 24, 1964 and payment in this sum was made to the owners. The agreement contained a clause to the effect that the Highway Department would reimburse the owner if the construction interfered with the septic system at the time of the appraisal, it could not be determined whether the septic system would be affected.

Subsequently, during the contruction operations, the owner advised that the septic system was damaged and was flowing uncontrollably on the surface of his property. An appraisal was secured from a sanitary engineer for a complete replacement of the septic system in the sum of $3,710. Two additional estimates were secured for the repair of the damaged septic system only, which were in the sum of $850 and $746.75. The owner has executed the attached invoice in the sum of $800 which represents full payment for damage to this septic system which was not considered in either the appraisals or the settlement hereinabove referred to.

It is recommended that authority be granted to pay the sum of $800 upon execution by the owner of a general deed of release of all claims for damages by reason of the septic system. (June 22, 1967)

The owner's demand of $3,000., plus damages due to the exceeding of the work area by the construction crews is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking.

Subsequent to the approval of this order and prior to its completion the maintenance division requested additional valuation estimates and a completely new order was issued to include the additional valuation concepts requested.

Right of Way - Route 21F

232 There is presented the matter of the consent award entered in the condemnation of property on Route 21F, Section 4, Parcel 92, in the City of Passaic, owned by Tatjana Westner, widow.

The consent award is in the sum of $27,500. The fair market value was originally set at $25,600. The owner was then asking $27,500. Trial counsel asked for an updating of the appraisals by the State's witness because the original appraisal was dated

October 28, 1964 and the complaint was filed on June 28, 1966. The appraisal was updated as of the date of filing the complaint and the fair market value was re-registered as $28,000. Since this is only slightly above the owner's asking price, settlement was entered in the amount of $27,500.

Approval of the payment of the settlement figure in the amount of $27,500, without interest, is recommended. (June 23, 1967)

233 There is presented the matter of a Legal Division settlement in the condemnation of property on Route 21, Section 4, Parcel 255 in the City and County of Passaic, owned by Julius Shupik; et al.

The owner was demanding $30,000. The fair market value was fixed at $26,500. Deputy Attorney General John T. Niccollai settled the case for $27,500.

On July 7, 1966, $23,000 was deposited into Court.

It is recommended that the settlement in the amount of $27,500 be approved. (June 27, 1967)

Right of Way - Route 23 ✓

234 There is presented the matter of the consent award in the amount of $325 entered in the condemnation of property on Route 23, Section 5, Parcel E38, in the Township of West Milford, owned by Anna Rickenbach.

The State made a deposit of $150 with the Superior Court. Subsequently, the fair market value was re-registered at $325. Apparently, from trial attorney's report, the owner's attorney could not get his client to agree to a settlement until the matter was before the commissioners for hearing. The commissioners entered a consent award in the amount of $325.

It is recommended that the consent award be approved and, further, that payment of the difference between the commission award and the deposit, amounting to $175, together with lawful interest as computed by the Title Bureau be approved. (June 30, 1967)

Right of Way - Route 29 ✓

235 There is presented here the matter of condemnation of property located on Route 29, Section 15, Parcel E18B, owned by Joseph S. Holland.

The fair market value for Parcel E18B was established at $200 on an appraisal made in August of 1963 and not updated. The complaint was filed in May of 1966. At the commission hearing held on March 11, 1967, a consent commission award was entered in the amount of $500 to include all interest to date of payment.

In view of the fact that the amount involved is small and that it is felt it would not be worthwhile to appeal from the award, it is recommended that the commission award of $200 be approved, payment not to be made until the delivery of the deed covering the owner's interest which was included in the settlement figure. (June 22, 1967)

Right of Way - Route 29

236 There is presented here the matter of condemnation of property located on Route 29, Section 15, Parcels 17 and E17B, owned by William E. Mountford.

The fair market value for Parcel 17 was established at $300 and the fair market value for Parcel E17B was established at $150 on appraisals made in August of 1963 and not updated. The complaint was filed on June 2, 1966. The State also constructed its highway over additional lands located between the Delaware River and the Trenton Water Power which amounted to an additional 22,000 square feet. At the commission hearing held on March 11, 1967, a consent commission award was entered in the amount of $1900 to include Parcel E17B and all interest to the date of payment and also to include the owner's right, title and interest in and to lands from the Trenton Water Power to the center of the Delaware River.

In view of the fact that the amount involved is small and that it is felt it would not be worthwhile to appeal from the award, it is recommended that the Commission award of $1900 be approved, payment not to be made until the delivery of the deed covering the owner's interest which was included in the settlement figure. (June 22, 1967)

In view of the fact that the amount involved is small and that it is felt it would not be worthwhile to appeal from the award, it is recommended that the commission award of $1000 be approved, payment not to be made until the delivery of the deed covering the owner's interest which was included in the settlement figure. 238 There is presented the matter of a Legal Division settlement in the condemnation of property on Route 35F, Section 2, Parcel 179, in the Township of Ocean, County of Monmouth, owned by one Anna L. Burhans; et al.

An initial demand of the owner was not stated. The fair market value was fixed at $3950. Deputy Attorney General John T. Niccollai settled the case for $3,950. On July 29, 1966, $3,950 was paid into Court.

It is recommended that settlement in the amount of $3,950 be approved. (June 27, 1967)

Right of Way - Route 35

238 There is presented the matter of the property of Azzolina Land Corporation, Parcels R12, 12B1, and 12B2, Section 8, Route 35, Front Street to Leonardville Road.

From a condemnation commissioners award of $134,800 for Parcel R12 an appeal was authorized March 6, 1967. By order of the Superior Court, dated March 22, 1967, Parcels 12B1 and 12B2, for which condemnation commissioners awarded $300.00 and $200.00 respectively, were consolidated with Parcel R12 for trial on appeal.

At the jury trial, the testimony on behalf of the owner was in the sum of $134,800 and the testimony of the State was $15,000 to $21,100. The jury returned a verdict of $38,500, and the court added interest at 6% from date of entry, October 22, 1963 to December 30, 1965, the date of Declaration of Taking and Deposit of $21,100 in the sum of $5063.01 and interest at 6% on $17,400, the difference between deposit and verdict, from December 30, 1965 to April 21, 1967 in the sum of $1,364.35 and judgment was so entered for $44,927.36. The owners appealed the judgment to the Appellate Division of Superior Court.

Authority is requested to deposit in Court $23,827.36, the difference between the judgment and the earlier deposits. (June 23, 1967)

Right of Way - Route 46

240 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 46, Section 14, Parcel R3 in the Borough of East Paterson, Bergen County owned by Julia Azurak.

The fair market value is registered in the amount of $5,300. At the hearing before condemnation commissioners the State's expert testified as to $5,600 for the taking and damages to the remainder, the additional $300 being the cost of relocating a previously overlooked fuel tank. The defendant was not present. The original fair market value of $5,300 was the amount deposited into court.

The commission award was in the amount of $6,000. It is recommended that this award be approved. (June 22, 1967)

Right of Way - Route 76

241 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 76, Section 1, Parcel 443 in the City of Camden, in the County of Camden owned by Vallie Francesconi; et al.

The fair market value is registered in the amount of $5,800. At the hearing before condemnation commissioners, the State's expert testified to a fair market value of $5,800 for the entire taking. The owner presented no testimony, but asked the commission to take attorney's fees and loss of rent into account, a contention resisted by the State. The fair market value of $5,800 was deposited into Court.

The commission award was in the amount of $6,700. An appeal is being taken to protect the record. It is recommended that the appeal be approved but that efforts be made by the Division of Right of Way to settle this case pending the hearing of the appeal (June 29, 1967)

Right of Way - Route 76 ✓

242 There is presented the matter of the award entered against the State in the condemnation of property on Route 76, Section 1, Parcel 800, owned by Mordel Co., Inc.

At the hearing before the commissioners the owners offered testimony in the amount of $6,100.00 and the State offered testimony in the amount of $4,000.00. The award was in the amount of $4,500.00 to which interest is to be added at 6% on the excess of the amount of the award over the amount of $4,000.00 deposited into court, from the date of the deposit to the day of the payment.

Approval of the payment of the additional $500.00 over the deposit, together with lawful interest as computed by the Title Bureau is recommended. (June 30, 1967)

Right of Way - Route 78 ✓

243 There is presented the matter of the commission award entered in the condemnation of property on Route 78, Section 3B, Parcels 11B, R11A & 11C, in the Township of Clinton, owned by Joseph Cocuzza.

This case involves a partial taking. The owner's testimony before the condemnation commissioners was in the amounts of $89,580 and $105,000, respectively. The State's testimony was in the amount of $37,350. As appears from the memorandum in the file, the State used only one witness before the commissioners. However, each of its two appraisers had alternate appraisals, one at figures of $37,350 and $59,340 and the other in the amounts of $45,800 and $66,700, depending on the final determination of the zoning depth at the time of the taking. The commissioners' award was in the amount of $59,500.

It is recommended that an appeal be taken from this award pending, at least, further study of the factors involved.

It is further recommended that the amount of the award, $59,500, together with accumulated interest be paid into court. (June 23, 1967)

Right of Way - Route 80 ✓

244 There is presented the matter of the commission award in the condemnation of property on Route 80, Section 3C, Parcel E69, in the Borough of Fairfield, owned by Walter Wlazlo, single.

This was an uncontested case. At the hearing before condemnation commissioners, the State offered testimony in the amount of $400. The commissioners entered an award in that amount. The amount of $150 has been previously deposited with the Superior Court.

It is recommended that the commission award in the amount of $400 without interest be approved.

It is further recommended that the difference between the commission award and the deposit, amounting to $250, be paid into court because of title complications. (June 30, 1967)

Right of Way - Route 80

245 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 80, Section 3D, Parcels 27A, 27B, 27C owned by Vincent Daddanello.

The fair market value is registered in the amount of $7,800. At the hearing before condemnation commissioners the owners' expert testimony was in the amount of $13,500 for the partial taking and damages to the remainder. The State's expert testified as to $7,800 for the taking and damages to the remainder. The fair market value of $7,800 was the amount deposited into Court.

The award of commissioners was in the amount of $12,600 which is considered to be excessive.

A protective appeal is being filed, approval thereof is recommended. (June 23, 1967)

Right of Way - Route 287

246 There is presented the matter of a settlement of the condemnation of property on Route 287, Section 9, Parcel 34, owned by Joseph F. Gallagher; et al.

The fair market value was registered in the amount of $21,000. Agreement to pay this sum directly was entered into in lieu of deposit into court. This is an entire taking. The commissioners' award was in the amount of $24,000. The State appealed the commissioners' award. This matter did not come on for trial.

The subject property was an under improvement for the neighborhood and it was therefore impossible for the State's appraiser to find truly comparable sales. It was therefore felt that a settlement in the amount of $23,800 would be in the best interests of the State.

It is recommended that the Commissioner approve the payment of the settlement figure of $23,800 inclusive of interest. (June 30, 1967)

SCHEDULE OF APPROVALS - JULY 12, 1967

Administrative Items

Claims - Settlements

1 The Department of Transportation has a claim against Jesse E. Sooy in the amount of $3,064.81 arising out of an accident occurring on July 18, 1966, involving a vehicle owned and operated by Jesse E. Sooy. On the date in question Mr. Sooy's vehicle was traveling in an easterly direction along State Highway 49 and was attempting to pass two vehicles ahead of him. Mr. Sooy alleges that as he proceeded to pass, one of the vehicles swerved in front of him causing him to pull to his left and strike a Highway Grader which was proceeding in a westerly direction along the shoulder of the roadway.

The insurance carrier for the Sooy vehicle advised this office that their appraiser appraised the damage to the Highway Grader at $2,648.46. The carrier also felt that they should not be held 100% responsible for our claim in view of the fact that an unknown vehicle pulled out in front of their assured and was the proximate cause of the accident. In order to dispose of our claim on an amicable basis, the insurance company offered 50% of our claim. The Claims Bureau discussed the offer of settlement with Joseph Lipkin, Esq. who suggested that we attempt to settle this case for the sum of $2500.00. Subsequent negotiations by the Claims Bureau has now resulted in the insurance company agreeing to the $2500.00 figure.

Giving due consideration to the cost involved in the event of suit in order to produce necessary witnesses to present our claim, as well as, the risk involved of an adverse decision in the event of an actual trial, we feel the offer of settlement is reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormak that it receive favorable consideration and be approved. (July 6, 1967)

Route 20 Freeway, Section 2A

This set up of funds as a commitment is based upon the Bureau of Public Roads authorization to advertise the subject project, a copy of which is attached. (June 21, 1967)

Services - Engineering - Route 81 ✓
Parsons, Brinckerhoff, Quade & Douglas

4 Our Agreement with Parsons, Brinckerhoff, Quade & Douglas dated August 29, 1962 provided services relative to location studies for Route 81. Due to the time lag and industrial growth along Humboldt Avenue, it became necessary to update the old studies as well as compare alternate alignments within the existing Turnpike right of way. Although the studies have not been completed, the original ceiling has already been exceeded.

It is, therefore, necessary to appropriate $16,000 to reimburse the consultant for the work authorized for this project. Should any extra work still be required, funds in excess of the aforementioned must also be appropriated. Since it is not possible to determine the extent of future studies at this time, the additional funds over the $16,000 will be set up at a future date. (July 11. 1967)

Construction Items

Route 80, Section 1B & 2L

14 The contract of Yonkers Contracting Company, Yonkers, New York, for Route 80, Section 1B & 2L, was finally accepted and a semi-final payment authorized with certain stipulations by Commission Action dated September 17, 1965.

Change Order #7 dated February 5, 1963, which was approved by the Department, recommended an extension of time of 50 working days. The Bureau of Public Roads by letter dated February 15, 1966, limited Federal Aid participation to 15 days. After review of additional information furnished by the Department, the Bureau by letter dated June 21, 1967, approved the full 50 working days.

Change Order #11 dated October 31, 1963, which was approved by the Department, recommended an extension of time of two working days. The Bureau of Public Roads by letter dated December 12, 1963, approved the Change Order except for the recommended time extension.

A further review of Change Order #11, wherein an extension of two working days was recommended, indicates the extra work required therein was landscape work which was not completed until May, 1964. As the charging of time stopped on November 1, 1963, this is not now considered acceptable.

The contract time for completion was 240 working days with the addition of 50 working days extension as per Change Order #7, the adjusted time for completion would be 290 working days. This results in an overrun of 106 calendar days from July 18, 1963 to November 1, 1963.

Liquidated damages in accordance with Article 1.7.1 are therefore chargeable for 106 calendar days at $690.799954 per day or $73,224.80.

It is recommended that final payment be authorized in accordance with the As-Built Quantities, continuing the deduction therefrom the amount of $871.75 representing the value of pavement thickness deficiencies and deducting the sum of $73,224.80 representing liquidated damages for 106 calendar days for the period July 18, 1963 to November 1, 1963. (July 7, 1967)

Services - Engineering
Route 37 Freeway
Parsons, Brinckerhoff, Quade & Douglas

11 Our Agreement with Parsons, Brinckerhoff, Quade & Douglas dated August 27, 1965, relative to services in connection with the alignment of Route 37 Freeway, defined a limited scope and a specific date for a public hearing. Due to difficulties which were encountered beyond the control of the consultant, the public hearing was not held at the time outlined in the Agreement.

A public hearing was held on August 2, 1966 which resulted in additional services required of the consultant. Right-of-way plans were developed on alternate lines; detailed studies on Line D were required; plus special studies, all of which were not included in the original scope of services.

The aforementioned extra work was authorized by the Department. The ceiling previously established, however, is not sufficient to cover reimbursement to the consultant for this work. It is, therefore, recommended that the sum of $46,000 be set up to provide reimbursement. (July 17, 1967)

Route 36, Section 2C & 3E

21 Approval is recommended in making Award of Contract to Big Top Landscape Contractors, Inc. for planting on Route 36 (1953), Section 2C and 3E, from Palmer Avenue in Keansburg to First Avenue in Atlantic Highlands, Township of Middletown and the Borough of Atlantic Highlands, Monmouth County, Federal Project No. LSF-111(1), at their bid, the lowest of three bids received on June 29, 1967, in the amount of $15,377.00. Route 495, Section 1A

22 Approval is recommended in making Award of Contract to Schiavone Construction Company for construction of Lincoln Tunnel Approach Viaduct Redecking and Repairs on Route 495, Section 1A, in North Bergen Township, Hudson County, at their bid, the lowest of two bids received on June 29, 1967, in the amount of $697,247.50.

Because the bid was $244,247.50 (53.9%) above the Engineers Estimate, it is further recommended that immediately upon award of contract, a change order be issued deleting item nos. 1, 6, 9, 17, 24 and 38 from the contract. These items amount to $98,700.00 and are not deemed necessary to the integrity of the structure. In order to compensate for overhead costs included in the deleted items, it is recommended that the change order provide for extending the completion date for Stage I from September 29, 1967 to October 31, 1967 and the completion date for the entire work of the contract from November 17, 1967 to November 30, 1967. The completion date of September 1, 1967 for the retaining wall will not be changed.

The repairs to the viaduct are extremely urgent and the Department is committed to constructing the retaining wall prior to the beginning of school in September.

It is not expected that readvertisement of the project would result in lower bids, and in any event, readvertisement would preclude meeting our commitment for the retaining wall and would delay repairs to the Viaduct until next spring.

Right of Way - Route 280

103 There are presented report and appraisals with map and description on

Route 280(1953), Section 1, Federal-aid Project I-280-6-(28), Route I-80 to Passaic River, Parcel 20, Pietro Roselle & Veronica Roselle, H/W. The owners refused an offer of $53,500 and demanded $140,000, which is considered excessive.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $53,500. (July 18, 1967)

Right of Way - Route 287

104 There is presented again the matter of condemnation of property on Route 287, Section 9, Federal-aid Project I 287-2-(10), Sand Spring Road to Route 24, Dorothy W. Compton, widow. Condemnation proceedings were previously authorized for Parcels 35A, 35B and 35C on December 27, 1965.

Subsequently, the parcels were revised, designated as Parcels R35A, R35B & R35C, and the fair market value was re-registered in the sum of $50,000. Re-negotiations with the owner have resulted in the refusal of our suggested settlement of $50,000 and a demand of $68,000 was made.

It is recommended that condemnation proceedings be instituted for the acquisition of Parcels R35A, R35B & R35C in fee simple subject to any public utilities existing in the premises. It is further recommended that condemnation proceedings previously authorized for Parcels 35A, 35B & 35C be rescinded.

By means of a special agreement in lieu of a deposit, the owner previously received the fair market value of $48,000. The variance between this amount and the revised value determination not being substantial, no authority is being made to now make a deposit covering the additional $2,000.

Upon taking of possession, authority is requested to dispose of the dwelling, garage, swimming pool dressing rooms and patio to the road contractor, by public auction or by sealed bids. (July 17, 1967)

Right of Way - Route 440 Freeway

105 There are presented report and appraisal with map and description on Route 440 Freeway, Section 1, Federal-aid Project F-209-(2), From New Jersey Turnpike to Route 35, Parcel R-105A, R-105B, Charles Billy and Pauline Billy, h/w.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The owners' agent refused State's suggested settlement in the sum of $4300.00 and demanded that the State take the entire property, which is considered to be an excessive and unreasonable demand.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit withthe court $4300.00. (July 17, 1967)

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The owners refused suggested settlement of $3,100.00 and demanded that the State acquire the entire lot and dwelling for $18,000.00, which is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof, by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $3,100.00. (July 17, 1967)

SCHEDULE OF APPROVALS - JULY 26, 1967

Administrative Items

Claims - Settlements ✓

1 The New Jersey Department of Transportation has a claim against the Wigder Leasing Corporation arising out of an accident occurring on November 15, 1963 at approximately 12:02 a.m. at the junction of Routes 1 & 9 and 21 & 22, in the City of Newark, involving a vehicle owned by the Wigder Leasing Corporation, being operated by an unknown driver. As the result of said accident, traffic signal equipment was demolished and the cost of replacing same amounted to $891.72.

Upon presenting a bill to the owner of the vehicle involved, the insurance company refused to make any payment on the grounds that their assured's vehicle had been stolen and was therefore being used without their permission. An investigation by the Claims Bureau revealed that the vehicle in question had been reported stolen, but not until after the accident. Subsequent investigation revealed that the vehicle allegedly was parked in its parking area at the close of the working day. Some time during the evening the vehicle was taken from its parking spot by some one unknown. The insurance company time and time again refused to honor our claim, however, there was some question as to the negligence of the owner of the vehicle leaving his keys in the vehicle as the keys were still in the vehicle at the time of the accident.

Recent negotiations by the Claims Bureau has now resulted in an offer of $445.86 being made in an effort to eliminate the necessity of a trial in order to collect the full amount of our claim. In the event of trial it would cost the State large amounts of money and time to produce the necessary witnesses in court.

Giving due consideration to the expense involved, as well as, the time consumed, we feel the offer of settlement is reasonable and should receive favorable consideration. It is therefore our recommendation that the offer of settlement be approved and the balance of the claim be cancelled in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack. (July 25, 1967)

Agreement - Route 80
Louis Berger & Associates ✓

15 Our account with Louis Berger & Associates for services in connection with Route 80, as described in our Agreement dated December 16, 1958, was prematurely closed. The construction contracts were staged so as to only complete that portion which would accommodate the traveling public. Designs have progressed on the remaining portion of Route 80 to reactivate this Agreement to complete ramps and appurtenances that were previously omitted from the contract.

Reimbursement for the new contract (presently defined as Route 80, Section 2M) will be on a fee equivalent of the construction cost in accordance with the terms of our Agreement. At this time it appears that $1,000 will be sufficient to cover reimbursement, and it is, therefore, recommended that this amount be set up. The Township of Denville, however, is requesting certain readjustments in this area which, if adopted, may necessitate additional engineering funds. (July 25, 1967)

The State offered testimony in the amount of $28,000 as a before value and $19,500 as an after value which resulted for the taking and damages to the remainder in the amount of $8,500. Fair market value was in the amount of $8,500. The award was in the amount of $9,500. There was a deposit of $8,300 made into Court on July 27, 1965.

Said deposit was made into Court on July 14, 1966. The Superior Court on August 12, 1966 ordered said deposit to be returned to the New Jersey State Highway Department and the Department to disburse the sum of $7,850.00 directly to said Charles F. Patterson and Mildred C. Patterson, or their attorney. Pursuant thereto on August 29, 1966 said deposit was returned to the Department.

At the time of trial, a conference of our appraiser, Mr. Nicholas Friday, Mr. James V. Hyde, and the trial attorney, Vincent J. Jennings was held, all of whom concurred in the settlement reached, in the amount of $7,750.00 without interest prior to June 26, 1967.

117 There is presented again the matter of condemnation on Route 78 (1953), Section 5C, Federal-aid Project I-78-5-(2), Diamond Hill Road to Shunpike Road; Parcel 15, Mountain Properties Inc. Condemnation proceedings were previously authorized for Parcel 15 on January 13, 1967.

Subsequently, part of the property was sold and the parcel is now designated as Parcel 15A. Renegotiations have resulted in a refusal of our offer of $66,000 and the owners' demand of $70,000, which is considered excessive.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $66,000.

It is further recommended that condemnation proceedings previously authorized for Parcel 15 be rescinded. (July 21, 1967)

The fair market value was registered in the amount of $20,000. At the hearing before condemnation commissioners the owner presented two experts. One stated that the value of the taking including damages to the remainder was in the amount of $67,000. The other expert stated that the value of the taking including damages to the remainder was in the amount of $75,050. This is a partial taking. The fair market value as determined by review section, Right of Way was in the amount of $20,000 and a deposit in that amount was paid into court.

The commissioners award was in the amount of $40,000 and a protective appeal was filed on June 6, 1967. It is recommended that the Commissioner approve the appeal of this matter heretofore filed. (July 21. 1967)

Legal Items

Right of Way - Route 15 ✓

109 There is presented the matter of a Legal Division settlement in the condemnation of property on Route 15, Section 2, Parcel 9, In the Township of Jefferson, Morris County, owned by Roland D. Larrison.

The owner was demanding $12,000. The fair market value was fixed at $7,500. Deputy Attorney General Harry J. Riskin settled the case for $8,000 together with interest of $1,500 at the sum of $9,500. There was a deposit of $7,500 made into Court on November 23, 1966.

It is recommended that settlement in the amount of $8,000 together with interest of $1,500 at the sum of $9,500 be approved. (August 10, 1967)

Right of Way - Route 24 ✓

110 There is presented the matter of settlement of the condemnation of property on Route 24, Section 12, Parcels R133A and R133B, owned by Dennis Crimmins; et al.

Fair market value was originally registered in the amount of $90,100 and this amount was deposited into court on July 27, 1965. Fair market value was subsequently reregistered in the amount of $93,000. This is a partial taking. The commissioners' award was in the amount of $110,600. The State appealed the commissioners' award. This matter was scheduled for trial on July 10, 1967 but settlement negotiations obviated the necessity of trial.

There is an appraisal in the file in the amount of $104,500 by a recognized outstanding appraiser. The fair market value appraiser allocated no value to the buildings on the acquired property. In addition, there was a serious question on the amount of damages to the remainder. It is therefore felt that settlement in the amount of $104,600 is in the best interests of the State.

It is recommended that the Commissioner approve the settlement figure of $104,600 inclusive of interest. (August 10, 1967)

Right of Way - Route 55F ✓

111 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 55F, Section 5, Parcel 14A, B, C, City of Millville, Township of Maurice River, Cumberland County owned by Frank Abbott.

Commissioners award was in the amount of $7,540. It is recommended that an appeal be taken since the commission award is considered excessive. (August 10, 1967)

Right of Way - Route 78

112 There is presented here the matter of the payment of taxed costs on a judgment secured in the condemnation of property owned by Ruth Nilsen; et al, Route 78, Section 4C, Parcels 75A, 75B, in the County of Somerset.

Taxed costs were not paid on the judgment at the time of settlement pending the disposition of the case of State v. Dilley then pending in the Supreme Court. By reason of the above case the State is responsible for the payment of taxed costs when a judgment exceeds the amount of the commission award.

Approval is therefore recommended for the payment of the taxed costs as appears in the statement of the Superior Court in the amount of $60. (August 10, 1967)

Right of Way - Route 78

113 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 78, Section 5A, Parcel 10 owned by Alfreda Dreher.

Judgment on appeal in the above captioned matter was entered on the 29th day of November, 1965 without interest or cost. The Judgment was not paid.

The original deposit of $35,000 was paid into court and said deposit was withdrawn by the property owner. The balance of the Judgment was paid into court on or about January 6, 1967. The property owner moved for interest on the $8,000 and I consented to an Order for interest from the date of the Judgment, November 29, 1965 to January 6, 1967 in the amount of $529.90.

I request that the Commissioner approve the payment of the interest. (August 10, 1967)

Right of Way - Route 80

114 There is presented here the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route 80, Section 4E, Parcel 35, owned by Frank X. Weny.

At the hearing before the commissioners the owners offered testimony in the amount of $587,800 and the State offered testimony in the amounts of $323,400 by Mr. Edward McKenna and $315,900 by Mr. Wilson. Fair market value was established in the amount of $256,000. The complaint was filed on June 25, 1965, and a deposit in the amount of $256,000 was made on July 28, 1965. The commissioners' award is in the sum of $507,500.

Appeal of the award of $507,500 is recommended. (August 10, 1967)

Right of Way - Route FAI 104-2-(4)

115 There is presented the matter of approval of the commissioners' award in the condemnation of property on Route FAI 104-2-(4), Parcel 3R335, in the Borough of Metuchen and Township of Edison owned by Hans Otto Schundler, Jr. and Gertrude D. Schundler, his wife.

Authority for Appeal was granted on May 11, 1967 and Notice of Appeal filed. The Right of Way Division has now agreed to a settlement of the condemnation for $25,000.00 without interest, in accordance with commissioners' award.

There has been no deposit in court in this case. It is therefore recommended that authority be granted to pay the sum of $25,000.00 without interest and that the appeal heretofore approved and filed in this matter be dismissed. (August 3, 1967)

Right of Way - Route 202-69

116 There is again presented the matter of the condemnation of property on Route 202-69, Section 2, Parcel 11, in the Township of Raritan, owned by Telerad Manufacturing Corporation, a corporation of Delaware.

This property was entered for purposes of construction on August 31, 1964; however, a deposit was not made in Court until September 19, 1966, which deposit was in the sum of $10,424. The fair market value of the taking was established in the sum of $14,296. The owners executed an agreement in the amount of the fair market value which agreement was confirmed by prior commission action. The owners refused to consummate the transaction on the ground that they feel they are entitled to legal interest from the date of entry. Despite the agreement, one of the Deputy Attorneys General consented to an agreed condemnation commission award in the amount of the fair market value.

It is recommended that a specific performance action be instituted against the owner since the action approving the agreement was in existence at the time the matter was presented to the condemnation commissioners and had never been rescinded. (August 10, 1967)

Right of Way - Route 280

117 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 280, Section 6, Parcel 250 owned by Vincent J. Bove.

The fair market value was registered in the amount of $15,000. There is another appraisal in the file in the amount of $20,000. The property owner testified that the value of the taking was in the amount of $27,186. The State's appraisals were made approximately 13 to 14 months prior to the date of the filing of the complaint.

In speaking to Mr. Krassner he stated that if he updated his appraisal to the date of the filing of the complaint his value would increase approximately 10% or $16,500.

The comparable sales relied upon by Mr. Krassner and Mr. Brennan were two to three years prior to the date of the filing of the complaint. Mr. Brennan's sales ranged between $20,000 and $23,900. It is my opinion that Mr. Brennan's appraisal more accurately portrays the market.

The commissioners award was in the amount of $17,500 and it was recommended that the Commissioner approve the award. (August 10, 1967)

Respectfully submitted,

Kenneth D. Rice

Right of Way - Route 21

173 There is presented here the matter of the settlement in the condemnation of property on Route 21, Section 4, Parcel 169, owned by Thomas A. Kerns.

This case was settled on the day of trial by Deputy Attorney General Harry J. Riskin after conferring with James V. Hyde, Jr., and Martin Klughaupt, Esquire, in the amount of $34,000. At the commission hearing the owners offered testimony in the amount of $44,250 and the State offered testimony in the amount of $28,500. Complaint date was June 27, 1966; fair market value was established in the amount of $28,500 based upon a 1965 appraisal. Commissioners awarded the sum of $36,000 which was appealed by the State.

Subsequent to the hearing, an updated appraisal reflected a value of $36,500.

There was a deposit of $28,500 made into Court on March 1, 1967.

Approval of the payment of the settlement in the amount of $34,000 minus the deposit moneys together with lawful interest as computed by the Bureau of Titles is recommended. (August 14, 1967)

Right of Way - Route 35F ✓

174 There is presented the matter of the acquisition of the property, Route 35F, Section 1, Parcels R40A, 40B, owned by Lillie Kreuder, widow; et al.

On June 30, 1967, a hearing with condemnation commissioners was held. Mr. William Wiseman, appraiser, testified for the state in accordance with his appraisal. The registered fair market value is $13,500.00, which was deposited in the Court on July 5, 1966. The owner's appraiser testified to $21,640.00. The commissioners awarded $15,500.00.

Authority is requested to accept the award and pay $2,000.00 in addition to the $13,500.00 heretofore deposited, plus interest as computed by the Title Bureau. (August 14, 1967)

The fair market value was fixed at $27,500 and a deposit in that amount was paid into court. The owners' attorney agreed to accept $27,500 in settlement of the case. The deposit had previously been withdrawn.

It is recommended that the settlement be approved. (August 14, 1967)

176 There is presented the matter of the judgment entered against the State in the condemnation of property on Route 80, Section 4E, Parcel 38, in the Township of Wayne, owned by Philip DeCumber and Rema DeCumber, his wife.

At the trial before the court and a jury, the owners' expert testified to a figure of $16,335. The State offered testimony in the amount of $5,500. The jury rendered a verdict in the amount of $6,500.

The approval of the payment of the verdict in the amount of $6,500, less the deposits in the amounts of $3,700 and $1,800, leaving a balance of $1,000 together with lawful interest as computed by the Bureau of Titles is recommended. (August 15, 1967)

Right of Way - Route 202-69 ✓

177 There is presented the matter of the Legal Division settlement in the matter of condemnation on Route 202-69, Section 1, Parcel 22, in the County of Hunterdon and owned by Julia Laviano.

The complaint was filed on November 23, 1964, and entry occurred on September 4, 1964; however, no deposit was made in Court. Appraisals contained in the file are in the amount of $6600 by Mr. DeSantis, a departmental appraiser; $10,640 and $9025 by Messrs. Yeaton and Orpen, fee appraisers. The reviewer's fair market value was in the amount of $7500 without the benefit of an individual appraisal.

Deputy Attorney General John F. Cannon settled the case by the entry of a commission award in the amount of $11,000 including all interest. Interest added to either of the fee appraisals approaches or exceeds the amount of the settlement. The settlement would appear to be in the best interest of the State.

It is recommended that the settlement in the amount of $11,000 net be approved.

NOTE: Interest on the Orpen appraisal would amount to $1720.50 and on the Yeaton appraisal $1915.20. (August 15, 1967)

Right of Way - Route 202-69 ✓

178 There is presented here the matter of the payment of taxed costs on a judgment secured in the condemnation of property owned by Frederick J. Dilley; et al, Route 202-69, Section 2, Parcel 33, in the County of Hunterdon.

This case was adjudicated in the Supreme Court of New Jersey to the effect that the State is responsible for taxed costs.

Approval is therefore recommended for the taxed costs in the amount of $85 together with interest at the legal rate from March 15, 1966, to date of payment and the sum of $61.05 with interest at the legal rate from February 24, 1967, to date of payment, all to be computed by the controller. (August 14, 1967)

Right of Way - Route 280 ✓

179 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 280, Section 7, Parcel 1, owned by Philip Sampson.

The fair market value was re-registered on June 14, 1967 in the amount of $62,500. At the hearing before condemnation commissioners the owner's expert testimony was in the amount of $80,000. The State's expert Frank Maring's testimony was in the amount of $58,000 and Joseph Brennan's testimony was in the amount of $62,500. This is an entire taking.

The commissioners' award was in the amount of $69,000 and a protective appeal was filed.

It is recommended that the Commissioner approve the appeal of this matter heretofore filed. (August 14, 1967)

Right of Way - Route 280 ✓

180 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 280, Section 7, Parcel 89, owned by Theodore Sall.

The complaint was filed on December 28, 1966 and the deposit was made into court on the same date in the amount of $152,500. The fair market value as determined by Review Section was in the amount of $152,500. A conference was had with James V. Hyde, Director, Right of Way and he stated that if the matter could be settled in the amount of $162,000, it would be in the best interest of the State.

The owner's expert testimony would have been in the amount of $185,000. The State's expert testified to $148,000. There is a question as to the effective date of possession and there was testimony that the re-location bureau advise the tenants to move out of the premises at the early part of 1966. The trial court has held a number of instances that the effective date of possession is the date that we advise the tenants to move and re-locate them. Interest would amount to approximately $7500.

The Report of Commissioners dated July 19, 1967 was in the amount of $162,000 and it is recommended that the Commissioner approve the payment of this award, less credit of the deposit of $152,500. ~~(August 14, 1967)~~

The Department agreed to participate with the Northern New Jersey Oil Company in sharing the costs of redredging. The Company proposed to redredge an amount that would improve their docking facilities over and above original facilities which was estimated to amount to 6,000 cubic yards of dredging. The decision of the Supreme Court obligates the State to pay taxes on acquired properties for the remainder of the tax year from the date of possession. The legal interpretation by the Department of Law instructs that cases where possession was secured prior to the date of the Court decision are not to be considered as eligible for reimbursement or payment.

The Borough of Totowa claims being in 1961 and 1963 respectively do not come within the above category.

By memorandum dated July 20, 1967, first Assistant Attorney General Handler instructs that claims filed during the pendency of the East Orange case, on which representation was made that disposition of the claim would be determined by the East Orange decision, such claims should be honored if they do not involve the question of retroactivity or the payment of interest.

The Borough of Totowa instituted suit during the pendency of the East Orange case and has now presented its claim for taxes for the remainder of the year 1961 on Parcel 129 in the amount of $2,305.14 (without interest) and for the remainder of the year 1963 on Parcel R153 in the amount of $2,957.14 (without interest) for a total payment of $5,262.28.

It is recommended that the deed be executed and that authority be granted to deliver the same to the City of Trenton upon the payment by the City of the agreed consideration of $176,000. Right of Way -Route 35 (1 ...)

125 There is presented again the matter of acquisition of Parcel 72 on Route 35 (1953) Section 9, Leonardville Road to Route 36, John J. Warnock, Jr., et al. A purchase agreement has been previously approved in the amount of $56,500.00, including a down payment of $14,125.00 which has been made.

This case is being handled by the Chelsea Title and Guaranty Company of Freehold, New Jersey. It had progressed to the point of final approval and certification of title at which time it was realized that fee absolute had not vested in the State. The last owner of record by deed had died testate devising these lands to one son for life with title to vest in those children of a second son living at time of death of the first son. A deed had been accepted from the life tenant and the remaindermen apparent.

The Title Company is now willing to insure the title to the State, on the basis of its representation of the conveyance of full title, for a charge of $274.50. Actual settlement has been held in abeyance pending clearing up the condition of title for over four months. It is, therefore, recommended that authority be granted to accept such title insurance and to pay the charge therefor.

(September 8, 1967)

Right of Way - Route 24 Freeway

127 There is presented again the matter of condemnation of property on Route 24 Freeway, Section 12, Federal-aid Project U 204-(6), River Road to Route 78, Brukin, Inc. Condemnation proceedings were previously authorized for the acquisition of Parcel 176 as the owner's demand of $65,000 was considered excessive.

Subsequent thereto, the Engineers eliminated a slope easement and re-designated the taking as Parcel R176. The parcel has been appraised and the Reviewer's registered fair market value determination is $40,500.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. It is further recommended that the Commission Action authorizing the condemnation of Parcel 176 be rescinded.

The case is presently under appeal in the Superior Court. It is further recommended that the complaint be amended to cover Parcel R176. Inasmuch as the sum of $40,500. representing the registered fair market value for Parcel 176 was previously deposited with the Superior Court and the re-registered fair market value for the revised Parcel designated as Parcel R176 is in the sum of $40,500., no further action for deposit is necessary. (September 8, 1967)

Right of Way - Route 80

129 There is presented report and appraisal with map and description on Route 80, Section 4E, Federal-aid Project I-80-4-(10), Two Bridges Road to Glover Avenue, Parcel 207, William Slapo & Leah, h/w.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The owner refused a suggested settlement in the sum of $7000. and demanded $12,000., which is considered excessive.

This parcel was appraised and the Reviewer's registered fair market value determination is $7000.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $7000.

Upon taking of possession authority is requested to dispose of the frame garage to the road contractor, at public auction or by sealed bids. (September 8, 1967)

Right of Way - Route 287

130 There is presented report with map and description on Route 287, Section 9, Federal-aid Project I 287-2-(10), Sand Spring Road to Route 24, Parcel 11A, Gracie W. Long and Eugene E., her husband.

Following execution of an option by this owner, but prior to its acceptance by the State, a property ownership change un-landlocked the property and required that the appraisals be adjusted downward and a new offer accomplished. Pending the completion of the necessary details, this Office received information to the effect that the owner had mandamused the Department to institute condemnation.

As of this date, an offer based on the State's appraisals has been made to the owner's Attorney of record, Owen F. O'Donnell in the amount of $10,000 plus actual cost to the owner to rebuild an entrance drive not in excess of $2,500 total. Concurrently, a similar offer was made to Richard B. Young, an Attorney who also claims to be the legal agent for this owner.

No rejection or acceptance of this offer having been received and in view of both the owner's action mandamusing the Department to institute condemnation, and the fact that the State's Contractor must enter the premises in pursuance of the highway construction, the matter is submitted with a request for authority to institute condemnation and to immediately file a complaint and Declaration of Taking, as well as to deposit with the Court the amount of $10,000.

Pending any Court action to establish a basis of compensation, it is hoped that further negotiations based on the ownership conditions as they now exist, will again result in the owner's execution of an option. (September 8, 1967)

Right of Way - Route 440 Freeway

131 There are presented report and appraisal with map and description on Route 440 Freeway, Section 1, Project U-209-(2), New Jersey Turnpike to Route 35, Parcel 222, Township of Woodbridge (A N. J. Corp.)

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $350.00. (September 8, 1967)

Legal Division Items

Right of Way - Route 23

136 There is presented the matter of settlement of the condemnation of property on Route 23, Section 5, Parcel 31, Township of Jefferson, owned by Elizabeth G. Bowles; et al.

Fair market value was registered in the amount of $900 which amount included a figure of $150 for engineering estimate of cost-to-cure adverse slope situation.

On the date set for commission hearing the State's engineer informed me that in his opinion the actual cost to cure would be $1,850. It is, therefore, felt that settlement in this case in the amount of $1,500 is in the best interests of the State.

It is, therefore, recommended that the Commissioner approve the settlement in the amount of $1,500 inclusive of interest (September 12, 1967)

Right of Way - Route 27

137 There is presented here the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route 27, Section 7, Parcel 25, owned by Carmine Maglione.

At the hearing before the commissioners no one appeared on behalf of the property owner and the State offered testimony in the amount of $135.00. Fair market value was established in the amount of $135.00. Commissioners awarded the amount of $135.00.

I recommend that no appeal be taken and that the money be deposited into Court. (September 15, 1967)

Right of Way - Route 35

138 There is presented the matter of the Commissioners' award in the amount of $210,000.00, in condemnation of property in the Township of Neptune, County of Monmouth, owned by City of Asbury Park.

The expert for the owner, Mr. John Lazarus testified to a difference in market value before and after of $275,000.00 and Mr. William A. Wiseman, the expert for the state testified in accordance with his appraisal to a difference in market value before and after the taking of $171,400.00 including "cost of cure".

At the hearing, it appeared there are several unresolved questions in the appraisals of all the experts. It is necessary to review carefully this award, which will require a few weeks. Accordingly an appeal is being taken to preserve the State's right to contest the award.

It is recommended that the appeal be authorized.

Right of Way - Route 38

139 Supplement to the action of September 8, 1967 approving payment of the judgment covering Parcel 2R172A, Route 38, Section 1, in accordance with the memorandum of Joseph Lipkin, Deputy Attorney General, to Mr. Russell H. Right of Way - Route 38

140 Supplement to the action of September 8, 1967 approving payment of the judgment covering Parcel R28B, Route 38, Section 2 (erroneously designated as Section 1), in accordance with the memorandum of Joseph Lipkin, Deputy Attorney General, to Mr. Russell H. Mullen, Assistant Commissioner, Highways, dated September 14, 1967, approved by Mr. Mullen on September 14, 1967, attached hereto and made a part hereof.

The action is corrected to provide for the payment of interest on $18,500.00 from December 18, 1966 to the date of payment. (September 14, 1967)

Right of Way - Route 80 ✓ Date

141 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 80, Section 3D, Parcels 48A & 48B, owned by Sands Manor.

The complaint was filed in this matter on June 21, 1966 and the deposit was made into Court on or about the same date in the amount of $6,000. The deposit has been withdrawn by the property owner.

There are two appraisals in the file. One by staff appraiser, Mr. William Sullivan, in the amount of $10,500 and one by Mr. Irwin Steinberg, fee appraiser, in the amount of $14,580. The fair market value as determined by Review Section, Right of Way was in the amount of $10,500. The property owner's testimony was in the amount of $31,500 for the taking including damages to the remainder. Mr. William Sullivan testified for the State and he was not an impressive witness.

The Report of Commissioners dated August 14, 1967 and received on or about August 22, 1967 is in the amount of $14,000 and I herewith recommend that the award not be appealed because on the appeal of this matter Mr. Steinberg would be the Court's witness and his value would be $14,580.

It is recommended that the Commissioner approve the payment of this award less the amount of the deposit already withdrawn by the property owner, without interest. (September 15, 1967)

Right of Way - Route 80 ✓

142 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 80, Sect[ion] 4E, Parcel 31B Township of Wayne, Passaic County, owned by one Ja[mes] Realty.

The fair market value is registered in the amount of $22,200. At the hearing before commissioners the State's expert admitted an error in the amount of $1,295 do to his failure to include an additional seven feet piece of frontage. This brought the State's appraised value to approximately $23,500 which in fact is the award of the commissioners.

Since the commissioners award was in the amount of $23,500 and the corrected State appraisal was approximately the same amount, it is recommended that this award be approved. (September 14, 1967)

126 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 70, Section 1, Parcel 33, in Cherry Hill Township, Camden County, owned by Admiral Wilson Realty Corp.

At the hearing before the Commissioners, testimony on behalf of the State was in the sum of $130,000.00 for the land and $48,218.00 for the fixtures, making a total of $179,218.00.

The testimony on behalf of the property owner was in the sum of $131,000.00.

On said property there was a diner owned by Cherry Valley Diner, Inc., and the owner of the diner testified that, in his opinion, the diner with all its appurtenances, was worth $250,000.00.

The Commissioners made an award in the sum of $179,213.00 and the Cherry Valley Diner, Inc. took an appeal.

The matter came to a trial before Judge Cooper Brown on August 9, 1967.

The State's expert, having updated his appraisal of the value of the land, testified to a value of $148,682.00 for the land and $48,218.00 for the diner, making a total of $196,900.00. Interest is payable at the rate of 6 per cent on the entire amount from April 21, 1965, the date of entry, to January 16, 1967; and from January 16, 1967, to date of payment, interest at the same rate on $2100 which is the difference between the award of commissioners and the amount on deposit.

It is recommended that the award in the amount of $14,350 be approved and payment in the sum of $2100, being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles. (September22, 1967)

Right of Way - Route 80

Commissioners' award was in the amount of $8,500.

Appeal was taken from this award and approval of said appeal is recommended. (September 21, 1967)

Right of Way - Route 280

130 There is presented again the matter of the acquisition of property on Route 280, Section 6, Parcel 17, Albert Randall, on which the Commissioner approved the payment of the judgment in the amount of $137,000.00 with interest thereon at the rate of 6% from the date of entry to the date of payment. There has been no deposit made with the Superior Court in this case.

The Court, on the 21st day of February, 1967, entered judgment in the sum of $137,000.00 and failed to provide for the payment of interest, and on April 6, 1967 the Court ordered that the said judgment be vacated, and further ordered that payment be entered in favor of

the respondents, Albert Randall; et al and against the appellant, State of New Jersey, in the sum of $137,000.00 and interest from the 30th day of June, 1965, date of entry to the date of trial of the cause, in the sum of $11,645.00, making a total of $148,645.00, and further ordered that one-half of the cost of transportation of the jury for the purpose of view be paid by each party.

It is recommended that authority be granted to pay the judgment of $148,645.00 with interest at the rate of 6% from the date of entry of the judgment, February 21, 1967, to the date of payment, and further that one-half of the cost of transportation of the jury be paid by the respondents. (September 21, 1967)

Right of Way - Route 287

131 There is presented the matter of the settlement of the condemnation of property on Route 287, Section 10, Parcel 13, owned by Norman R. Johnson; et al.

Fair market value was in the amount of $28,300. At the commission hearing property owners offered testimony in the amounts of $38,180.80 and $34,380. Although notified to appear, the fee appraiser upon whom fair market value was fixed did not do so. Accordingly, the other appraiser making the other appraisal was called and he testified in the amount of $25,500.

The commissioners' award in the amount of $29,000 was accepted by the State. The property owner, however, took an appeal therefrom.

The comparable sales and the photographic evidence as well as testimony indicate a probable jury verdict in excess of $30,000 particularly where the State's fair market value appraiser would be called upon to testify in the amount of $28,300.

Original fair market value in this case was $26,800 which amount was deposited into court on July 14, 1966. It is therefore felt that settlement in the amount of $30,000 is in the best interests of the State and it is recommended that the Commissioner approve the settlement figure inclusive of interest. Claims - Settlements

5 The Department of Transportation is carrying a claim against John W. Fischer in the amount of $287.64 arising out of an accident occurring on January 1, 1967 involving a vehicle owned by John W. Fischer which at the time of the accident was being operated by an unlicensed driver, his son, Thomas E. Fischer, age 15. As the result of this accident, highway lighting equipment was damaged and had to be repaired at a cost of $287.64.

The insurance company representing the owner of the vehicle advised this office that at the time of the accident, Mr. Fischer's car was being operated by his teenage son without permission and that the car had been reported stolen by their assured. The insurance carrier further indicated that there was a serious question of coverage, inasmuch as, the vehicle was being used without the owner's permission. However, rather than litigate the claim and for economic reasons, they offered to settle our claim for the sum of $148.00. This offer was rejected and subsequent negotiations by the Claims Bureau has now resulted in the insurance carrier offering the sum of $200.00 in full settlement of the State's claim.

Giving due consideration to the circumstances in this case, as well as, the cost involved to the State in the event we instituted a civil action against the owner and his son, we are of the opinion that the best interest of the State would be served if the offer of $200.00 is accepted as it would undoubtedly cost us more than $87.00 to institute a suit and obtain a judgment. It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney Joseph Lipkin that the offer of $200.00 receive favorable consideration and be approved. (September 27, 1967)

Route I-78, Section 3F

6 Public Constructors, Inc. submitted a semi-final estimate of $135,731.70 on Route I-78, Section 3F, Federal Project NJ-I-78-3(10)22 and prior to the payment thereof, action was instituted against Public Constructors, Inc.,on the bond filed by Public Constructors, Inc., by Warren Limestone Co. and Barren Trucking Co., Inc. and subsequent to the institution of said suit, Warren Limestone Co. and Barron Trucking Co., Inc. filed claims with the Department of Transportation, whereby payment of $90,000 on the semi-final estimate was not made.

The claims filed by Warren Limestone Co. and Barron Trucking Co., Inc. are disputed and contested by Public Constructors, Inc., which cases are now pending in the Superior Court of New Jersey.

By reason of the opinion by the Attorney General's office it was held that the Warren Limestone Co. and Barron Trucking Co., Inc. have exercised their right to proceed on the bond. Therefore, approval is recommended that the sum of $90,000 be paid on account of the semi-final estimate submitted. (September 29, 1967)

There is presented again the matter of condemnation of property on Route 287 (1953), Section 7, Project I-287-2-(2), Passaic River to Annin Road, Florence Stone Steele, widow. Condemnation proceedings were previously authorized by the Commissioner on January 3, 1966, for the acquisition of Parcel 23 and the Reviewer's Fair Market Value determination of $11,950 was previously deposited in the Superior Court.

At the time condemnation was instituted for Parcel 23, the acquisition was based on the premise that access to the owner's remainder of 13.21 acres would be achieved over a 50-foot wide right of way leading from the remainder to Mt. Airy Road.

Subsequently, a title search was instituted to determine whether this 50-foot wide right of way was a dedicated public road and our Title Bureau and our Legal Division have advised that the owner has no right in and to this proposed right of way and that the remainder of 13.21 acres is therefore landlocked.

Accordingly, new maps, descriptions, and appraisals were secured setting up the remainder of 13.21 acres as an additional parcel designated as Parcel 23A and the acquisition is now an entire taking.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel 23A in fee simple, subject to any public utilities existing in the premises. The owner still refuses to state a demand.

Condemnation proceedings were previously authorized by the Commissioner on February 14, 1966 and the Reviewer's Registered Fair Market Value Determination in the sum of $1,880 was deposited in the Superior Court. Subsequently an updating of the appraisal was secured which resulted in the Fair Market Value Determination being raised to $3,215. A suggested settlement in the sum of $3,215. was refused by the owner at this time as acceptance depended on the construction in the area.

Authority is therefore requested to deposit the difference of $1,335. in the Superior Court making the total on deposit the sum of $3,215. (October 9, 1967)

TRENTON

SCHEDULE OF APPROVALS - OCTOBER 17, 1967

Administration Items

1 **Route 95, Section 19B, N.J. Project I-95-5(5)27**
Route 440 Freeway, Section 1A, N.J. Project U-209(4)

It is recommended that a total commitment of $3,551,026.00 with Federal Interstate funds in the amount of $2,592,360.00 and Federal Urban funds in the amount of $188,000.00 be made on the State Highway Department records as of October 10, 1966. This set up of funds as a commitment is based upon the Bureau of Public Roads authorization to advertise the subject project, a copy of which is attached. (October 18, 1966)

Claims - Settlements

2 The Equipment Division of the New Jersey Department of Transportation is carrying a claim against Albert and Gerald Roth in the amount of $71.52 arising out of an accident occurring on August 23, 1965, resulting in damage to State vehicle bearing Reg. HYD-536. The insurance carrier for the defendants refused to honor this claim on the grounds that their assured were not legally responsible for the accident in question. Inasmuch as it was a matter of principle, a suit was instituted against the owner and operator of the other vehicle involved.

Prior to trial we attempted to get the insurance company to reconsider their position, but they were adamant, that they would rather try the case than pay one cent. On September 29, 1967 Deputy Attorney General Harry Irwin appeared before District Court Judge Triarsi and a settlement conference was held with the attorney representing the Allstate Insurance Company. After several telephone calls to the main office of the insurance company, the matter was finally settled for the sum of $40.00. Mr. Irwin accepted the $40.00 sum rather than proceed to trial in which case he would have to call in the operator of the State vehicle at the time of the accident, as well as, the Master Mechanic in Trenton, in order to prove our damages.

In view of the foregoing we feel the best interest of the State would be served by accepting the sum of $40.00 rather than proceed to trial for the remaining sum of $31.52 as it would undoubtedly cost the State much more to produce the necessary witnesses to prove our case.

It is therefore our recommendation that the sum of $40.00 be accepted in full settlement of this claim and the balance of the claim be cancelled in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack. (October 16, 1967)

Right of Way - Route U.S. 46

157 There is presented the matter of a Legal Division settlement in the condemnation of property on Route U.S. 46(1953), Section 6, Parcel R3, owned by Francis W. Bishop.

Fair market value was fixed at $2,400.00. Deputy Attorney General Harry J. Riskin settled the case for $3,000, inclusive of interest. There was a deposit of $1,600.00 made into Court on November 9, 1966.

It is recommended that settlement in the amount of $3,000.00, inclusive of interest be approved. (October 13, 1967)

Right of Way - Route 78

158 There is presented here the matter of the payment of interest on a consent commission award in the amount of $70,000 in the condemnation of property on Route 78, Section 2K, Parcel 16, owned by Marguerite Cassullo.

The award was entered on May 17, 1966, in the amount of $70,000, however, by reason of an administrative mishap in the office of the State Treasury the check was not made available until December 30, 1966, at which time payment was made. The original check was apparently lost. The owner's attorney made application to the Court for interest pursuant to N.J.S.A. 20:1-13 for payment of interest from 20 days after May 17, 1966, to December 30, 1966.

The Court ordered payment of interest which has been computed by the Accounting Department to be in the sum of $2381.92 and authority to pay the same is herein requested. (October 16, 1967)

Right of Way - Route 280

159 There is presented the matter of the Judgment entered against State in the condemnation of property on Route 280, Section 3, Parcel 90, owned by Michael J. Guarino.

The original fair market value is in the amount of $5,350 and the updated appraisals are as follows: Mr. Irving Steinberg, $7,500. Mr. Frank Maring $10,600. Mr. H. Blanchard, $12,000. The fair market value as determined by Review Section, Right of Way was in the amount of $7,500.

The State's testimony before commissioners was in the amount of $5,350 and the commissioners award was in the amount of $8,000. The State's expert testified to $7,500 at the jury trial. The property owners expert testified to a value of $12,000 at the jury trial. This is a partial taking. The jury verdict was in the amount of $8,500 plus interest of $243.11 on the excess of the jury award over the deposit. The complaint was filed on June 7, 1966, and the deposit was made into Court on June 30, 1966 in the amount of $5,350.

The Judgment has not yet been received from the Court. It is recommended that the Commissioner approve the jury verdict of $8,743.11 which includes interest on the date of Judgment. (October 16, 1967)

160 There is presented the matter of the Right of Way - Route 280 ✓ Judgment entered against the State in the condemnation of property on Route 280, Section 6, Parcel 18 owned by Tillroe Realty Co., a corporation of New Jersey.

The complaint was filed in the above captioned matter on January 9, 1963. The deposit of $78,500 was made into Court on or about April 14, 1967. The State has been in possession since February 11, 1965.

The Report of Commissioners dated May 20, 1966 was in the amount of $122,500 and the award was appealed. The property owner withdrew the deposit in June, 1967. The fair market value was re-registered on June 6, 1967 in the amount to approximately $104,000.

On the date of trial, June 7, 1967 a consent Judgment in the amount of $105,000 net without interest or cost and interest not to accrue on the Judgment until from and after August 7, 1967 was entered by the Court.

Former Commission Action erroneously provided that consent Judgment in the amount of $105,000 net without interest of cost and interest not to accrue from and after August 7, 1967 was entered by the Court.

It is recommended that the former Commission action be vacated and the Commissioner approve the payment of this Judgment, together with interest accruing after August 7, 1967, less the amount of the deposit of $78,500 which has already been withdrawn by the property owner. (October 13, 1967)

161 There is presented again the matter of the condemnation of Right of Way - Route 280 ✓ property on Route 280, Section 7, Parcel 89, THEODORE SALL.

On August 14, 1967, the Commissioner approved the payment of the award in the sum of $162,000.00 less the deposit made into court of $152,500.00.

The Attorney for the owner now makes claim for the payment of interest on the excess of the award over the deposit from the date of deposit to the date of payment. Under N.J.S.A. 27:7-22 the owner is entitled to interest at 6% as claimed.

Approval of the payment of interest at 6% on $9,500.00, being the excess of the award of $162,000.00 over the deposit of $152,500.00 from the date of deposit December 28, 1966, to the date of payment, October 2, 1967, is recommended. (October 16, 1967)

New Jersey Realty Title Insurance Co.

103 There is presented herewith proposal of the New Jersey Realty Title Insurance Company to make complete abstract searches covering Parcels 1A,1B,1C,1D,1E,1F,1G and E1H, Route 23, Section 6, issue Reports of Title including Upper Court searches, at a cost of $2,500.00. The proposal also provides for a charge of $3.75 per each one thousand dollars, or part thereof, up to $50,000., and $1.875 per each one thousand dollars, or part thereof, over $50,000 for liability, in case the State requires a Certificate of Title upon the completion of Condemnation proceedings.

This searching job covers an area of 11.720 acres and extends for a distance of approximately two miles through the Newark water sheds. The Title Bureau does not have sufficient title forces to accomplish the extensive job within the required period of time, and if it did have the cost to the State has been estimated to be a minimum of $5,000.

The New Jersey Realty Title Insurance Company has extensive back titles in the area involved and therefore is in a position to do the job expeditiously and at a reasonable charge.

It is recommended that the proposal of the New Jersey Realty Title Insurance Company be accepted and authorization granted to pay the amounts indicated in the proposal upon completion of the work as provided therein. (October 19, 1967)
